

18th January 2008

Dear Parents

Last week I wrote to you with details of the Parents' Consultation meetings to be held in the week commencing Monday 28th January. You should by now have made an appointment with your child's class teacher. Please contact them if this is not the case.

Wet Weather Arrangements

A combination of rainfall and run off from the building site has led to the dell becoming flooded. Children should not, under any circumstances, go down into the dell. Please remind your child if they are tempted.

A reminder that if it is raining when children arrive for school in the morning they are allowed to come into their classrooms rather than stay outside and get wet.

New Build Update

The latest information from the builders is that they began the erection of the steel frame before the Christmas break and this is progressing well, hopefully to be completed within the next week. The first phase of the installation of pre-cast concrete planks has also begun and again should be completed within the next week along with the two internal staircases.

The below ground block and brickwork is now progressing well when weather permits, with the above ground work commencing next week. Hopefully the weather will be a little kinder to us over the coming weeks and you should see a big difference in the building, giving you more of a concept of how it will look.
